

CENTRAL PARK

Long Ago, Driving An Automobile Was An Adventure!

***Relive those magical days of yesteryear
with this amusement ride for all ages!***

The nostalgia of days gone by... place yourself at the turn of the century...when the automobile was the rage of the land. Those few brave souls are out cruising the countryside in their newly acquired horseless carriages and having the time of their lives. **CENTRAL PARK** by Majestic lets your patrons relive those exciting, carefree days

of yesteryear with all the thrills of riding in horseless carriages.

While this unit is designed to be portable, it is also the ideal addition to a permanent park setting. And you don't have to worry about space constraints because the track layout can be customized to fulfill your specific requirements.

Majestic

Your Partner For Success!

Step Back In Time With This Versatile Ride From Majestic!

Majestic offers four uniquely different track layouts giving you a wide selection for your specific space requirements. This excitingly different ride comes with 5 colorful replicas of the original Model T Ford, each one seating four occupants. The cars are solidly built of steel and fiberglass with running wheels made of long life nylon.

Central Park is totally manufactured and assembled in the United States. The complete ride is constructed on a 28 foot trailer with a fifth wheel detachable gooseneck.

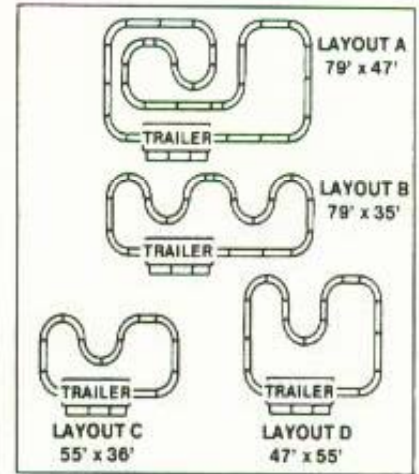

Other special features include hydraulic leveling, retractable trailer wheels, stainless steel track with synthetic railroad ties and a roof that raises and lowers with ease.

At Majestic, our engineers design each ride for high profits and low maintenance.

Majestic, your partner for success!
