# SAFETY ALERT

Ride Manufacturer: Barbieri / Majestic Mfg.

Affected Production Dates: All Production

Ride Name: MUSIK EXPRESS

Affected Serial Nos.: All Serial Nos.

Model Number: All Models

## Abstract of Issue:

This alert is to notify the owners about a concern with the erection of the Musik Express and the rolling out of the front and rear façade sections.

## Reason For Release:

During the setup of the ride (Musik Express), the track that supports the rollers that ride inside which allows the front façade to roll out, apparently spread open and allowed the rollers to drop out and the front façade section that rolls out to the front of the ride dropped to the ground on one end.

Action To Be Taken: (Inspection, Modification, Replacement, NDT, Order Parts, Manual Revision, Procedural Change, etc.)

Inspections of the track and rollers for any spreading or damage should be done before setup of the front and rear facade. If there is any spreading or damage to the track and rollers, please notify the manufacturer immediately for repairs.

## Detail Of Issue:

(Text/Drawings/Schematics)

spread open track
